WCS

Wantage Counselling Service

Counselling offers the opportunity to explore thoughts and feelings in a reliable, independent relationship where trust and confidentiality are respected and recognised as essential.

Wantage Counselling Service was founded in 1984 to provide counselling for individuals, couples and young people over the age of 15 years. As a registered charity, clients are counselled entirely according to

All our qualified counsellors have been trained to Diploma level, mostly through the WCS counselling training programme. Each counsellor receives weekly practice supervision.

need and irrespective of their ability to pay the full fee. As well as being a respected community agency we also provide counselling services to GP surgeries and schools. GPs and Psychiatric Consultants make much use of our services and comment that the WCS is particularly valuable as a voluntary addition for patients in need of long term care beyond whatever the NHS can provide.

A client may come with anxiety and depression, maybe, for example, having great difficulty in leaving the house, symptoms which make everyday life very difficult to cope with. Most people find the opportunity to explore these feelings with a skilled professional counsellor results in a new approach to life which is happier and more successful. Actual clinical illness can often be prevented.

As a BACP Accredited Service we follow the British Association of Counselling and Psychotherapy's (BACP) Ethical Framework for Good Practice.

After contacting us using the details below, you will be offered an initial appointment with one of our counsellors where you will be able to explore and decide whether you think counselling is suitable for you. It also helps us to know if we are the right agency for you.
